TRAINING TEACHERS AT THE BRITISH COUNCIL (HK) & HANGZHOU FOREIGN LANGUAGE SCHOOL

ABOUT TRAIN THE TEACHER

THE FUSION

Years of experience in English language teaching, teacher training and teacher management led to the development of a Fusion Teaching Model (2004), combining the strengths of traditional local approaches and contemporary international teaching methods.

TTT, which founded Fusion Teaching, claims this combination leads to more efficient learning and higher levels of fluency than a single use of either the traditional or communicative approaches.
