Comprehensive Quizzes

Interactive quizzes with immediate feedback on your answers

ASSESSMENT

The Train the Teacher Certificate In International TESOL Is a fully assessed course. With over 25 years experience in teacher training we believe that a course should be beneficial to not only our trainees but also their future employers and students.

Your knowledge of teaching skills is tested throughout the course culminating in an assessed video of your teaching, where you will demonstrate your skills and knowledge when teaching a real class.

Unit Quizzes (10%)

After each lesson you have the opportunity to test what you have learned with our engaging online quizzes. These short quizzes are designed to aid learning by providing detailed feedback after each answer.

Final Quiz (20%)

Once you have completed all units you will have the opportunity to take the final quiz which is a summative assessment of what you have learned on the course.

1. It is important to use a systematic approach to teaching phonics because 1 / 1 point

Your Answer: ✓ Correct

- ☐ phonic decoding of complex words can be confusing for young learners.
- ☐ we want learners to develop speed in decoding, so they need lots of practice in easy graphemes first.
- ☐ with a systematic approach you can teach all the necessary parts of phonics.
- ☐ if learners become confused about phonics it can have a negative effect on reading skills.
- ☒ all of the answers

Explanation:

One of the most frequent mistakes teachers make is to teach the phonics of every word they teach. This is like teaching the grammar of every sentence you teach :) It is very confusing for young learners because they can't memorize phonic 'rules' that they see only infrequently. A step-by-step approach means they become skilled in high frequency phonemes (S/M/P/T/G/A/O) and start to 'read' with these graphemes. They become confident and skilled at this level.

Teaching Video (70%)

The final video of your teaching is your opportunity to practice and demonstrate what you have learned on the course, and serves as a record of your teaching abilities for potential employers.

You will be given detailed instructions on how to make your video and constructive feedback on your performance.

The video can be of either a face to face or online class. If you don't have access to a class you can teach a class through Train The Teacher (by arrangement).

SILVIA

The course is great. I truly love it!

AMIR

First of all, thank you for the AMAZING certificate course. I am taking it and it's brilliant

TAMARA

I love the course ! Besides some useful theoretical input, I find the introduction to cultural differences regarding the language acquisition especially interesting. I am progressing a bit slower because I tend to listen the presentations thoroughly and I really love the way you speak :)

DARREN

I really felt accomplished after finishing the course and I was able to get constructive feedback from the course director which was a further benefit to me. I would not hesitate in recommending the course to other teachers and friends interested in completing an international TESOL course. The content provided in this course along with the layout provide for a really fun and indepth learning experience
